

Dear Treasured Friend,

We are excited to announce the opening of our entirely new website www.winkjones.com. It has so much more of what you have been telling us you wanted, more education ([link to education page](#)), more information and pictures of diamonds and gems, more examples of our finished pieces ([link to gallery](#)) and finally, a real shopping cart with a nice selection of Diamonds and colored gemstones as well as an incredible selection of hand polished wooden jewelry boxes and other jewelry accessories as well as acquired one-of-a-kind ready-to-go pieces.. ([link to store and to appropriate category pages](#)) You'll be able to check on special purchases and offerings as well as ongoing updates to pictures of settings and stones. In addition, you will find valuable links to some of the colleagues that we network with to create beautiful heirlooms for you and yours.

You are receiving this email because you either signed up at www.winkjones.com or www.FreeCZ.com, our sister site, or because you have been a client at Winfield's in Boise, Idaho and given us your email address. You are now enrolled to receive our newsletter which will come to you approximately monthly with specials and with information about the jewelry industry and how it affects you as a jewelry consumer. If you'd like to be removed from our list, you may do so at the bottom of this email or at the bottom of each and every newsletter. Your information will NEVER be sold or given to anyone else.

As always, our specialty remains individual care of you as our friends and clients. We continue to specialize in the making of custom jewelry of the highest quality and in the splendor of custom cut gems.

Please visit our new site www.winkjones.com and feel free to email us with any ideas that you have for its improvement. If you liked our old site, or if you just tolerated it because you liked us, then we think you will find this new site a MAJOR improvement.

Thank you for your interest in us. We look forward to being of service to you in the future.
